

CITY *of* BLOKES

Bitter

Ingredients & Stats

Grain & Adjuncts: Golden Promise, Special B, Victory Malt
Hops: East Kent Goldings
Yeast: House English Ale Strain

ABV: 4.0%
IBU: 34
SRM: 11.5

Flavor Description

Light, yet full of flavor. Our Pub ale exerts hints of toast, nuts, and caramelized honey along with firm earthy hop notes. While on the bitter side, there is enough malt depth to keep things from getting too overwhelmingly bitter. Carbonation has been kept low for maximum drinkability.

Story Behind the Name

Our English Pub Ale is named after our beloved City of Oaks. We love session ales and thought this would be perfect for those who wanted to sit back and enjoy several pints while having deep conversations about life & the world. We also love witty names.

History of Style

English Bitters were originally served from casks and were kept low in starting gravity as that was how the English government determined its taxation on beer (ie; there were better profits for breweries to keep alcohol low). The end product was a low-gravity, super drinkable session ale.

Availability: Year-Round; draft, growlers

Vegan-friendly: Yes, we don't use animal products in this beer.

Age-ability: No
